

To whom it may concern

Letter of Recommendation

Barney Jackson are not just a band. Their talents extend well beyond a professional presentation of both classical and modern music, truly international in its arrangements. They are theatre, comedians, and have a feel for the mood and tastes of their guests.

Their repertoire includes dance music, background music and stage performance with a singer of outstanding quality. But there is more than that to Barney Jackson: they provide a full service to turn a great evening into something your guests will take home as a memory of a stunning event, tailor-made for them. They will have music at its best: professionalism and a sense of having been taken care of.
